Step 1.

Clean the area using a microfiber cloth to remove any dust or excess dirt.

Step 2.

Remove the tape backing from the first cover and line it up to the button ring.

Step 3.

Once you're happy, place the cover over the ring and apply pressure for around 15 seconds to ensure it sticks.

Step 4.

Continue the previous step to fit the second ring.

Step 5.

Sit back and admire the new rings!
