

Scorpion Rear Diffuser Clip-On Edition

INSTRUCTIONS

PLEASE READ WARNING FIRST!

Step 1.

Carefully unpackage your scorpion and clean the rear diffuser of dirt, water and paint pen.

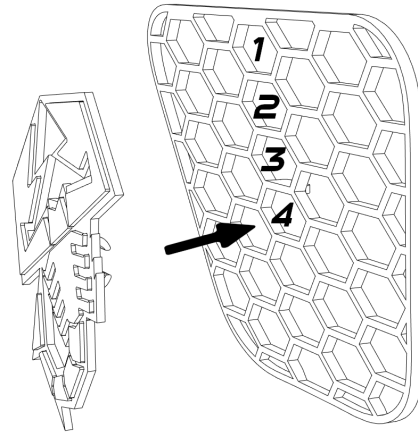

Step 2.

Carefully insert scorpion as shown in Step 2 image. Count 4 shapes from the top and insert the clip into the Hexagon. You should hear a 'click' noise when it is firmly installed into position.

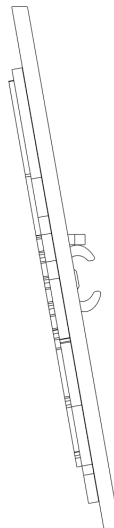

WARNING! - Press gently and do not push hard otherwise you may break your diffuser! Remove the Scorpion and re-position if it struggles to clip into place. If the car has not been started for at least 4-5 hours, gently reach round behind the diffuser and support the grille from behind when pushing into place to prevent excess stress on the plastic parts. **DO NOT TOUCH THE EXHAUST!**

We cannot accept responsibility for damage to either your vehicle or Scorpion caused upon installation.

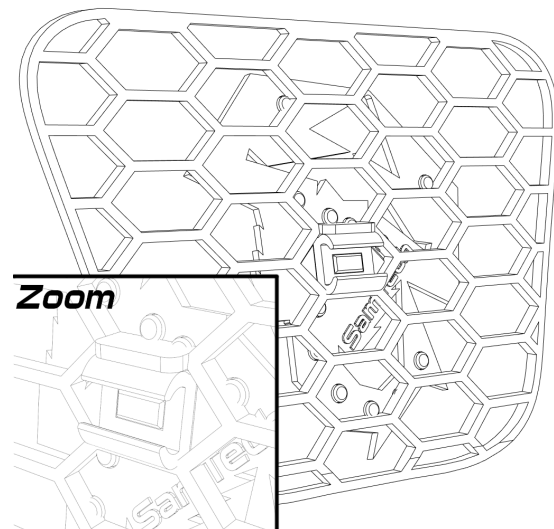

Step 2.

Step 3.

Step 4.

Enjoy your new Scorpion Rear Diffuser Clip-On Edition!

Thank you for your purchase with us!
